## LEAN ADVANTAGE™

## LEAN ADVANTAGE™

### SUPPORT HEALTHY WEIGHT MANAGEMENT

Welcome to Premier Research Labs' flagship product, Lean Advantage™. This formula delivers a new genre of world-class, full spectrum botanical ingredients, herbal extracts and specialized nutritional agents - all combined together in one formula that is designed to support healthy weight management, lean body mass and glycemic metabolism.

### HOW IS LEAN ADVANTAGE DIFFERENT?

Lean Advantage™ is not a “JOLT product” loaded with artificial stimulants to try to rev up weak adrenals such as products that contain high doses of guarana or ephedra. So how is Lean Advantage different? Leading the list of all-star ingredients in this formula are heavy hitters like **Green Coffee Bean Extract**, **Citrus Aurantium Extract** and **Raspberry Ketones**. Anchoring these three super stars in our formula is our full spectrum support blend, Lean Advantage Pro Blend, which contains Organic Whole Chlorella (broken cell wall for best absorption), Green Tea Leaf Extract, Organic Turmeric Rhizome and Organic Bladderwrack fronds. Wow - now that's quite a super star blend!

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

### SUPPORT HEALTHY GLUCOSE RESPONSE

Our Green Coffee Bean is standardized to contain a full **200 mg of chlorogenic acid per 2 capsules** (one serving). Chlorogenic acid is a naturally occurring component of the green coffee bean, which has antioxidant-like properties. Exciting new research shows the beneficial effects of chlorogenic acid on body composition and metabolism. Green Coffee Bean targets the body's metabolic pathways to support healthy glucose response.

### SUSTAIN THE RATIO OF LEAN MUSCLE TO TOTAL BODY MASS

Next this formula includes the thermogenic ingredient, Citrus Aurantium extract, a patented extract called Advantra Z<sup>®</sup>. Clinical studies show that the natural-source ingredient, Advantra Z<sup>®</sup>, promotes thermogenesis and thus, **supports healthy, safe weight management as well as helping to sustain the ratio of lean muscle to total body mass**. Other studies show that it helps promote fat breakdown. This should not be confused with synthetic forms of synephrine which may have undesirable effects.

### 60 MG OF RASPBERRY KETONES

Lean Advantage<sup>™</sup> also delivers the world renowned ingredient, Raspberry Ketones, as an essential, biocompatible nutrient to this already impressive blend. Lean Advantage<sup>™</sup> provides 60 mg of Raspberry Ketones per serving.

### VITALITY FOR A LIFETIME

When truly biocompatible ingredients of premier quality are combined together, they can produce highly desirable results. Never before has such an impressive lineup of

natural ingredient super-stars been assembled into one supplement. Lean Advantage<sup>™</sup> is the result of years of research and development in the nutritional art of healthy weight management.

Please enjoy using Lean Advantage<sup>™</sup> as an integral part of your own personalized "Healthy For Life" daily program that includes a healthy diet (with an abundance of healthy carbs) and exercise for best results. This masterpiece, Lean Advantage, is our selected product of choice for helping you to maintain healthy weight and overall vitality for a lifetime.
