Commitment to Excellence:
Each PRL Formula Meets or
Exceeds FDA/cGMP Standards

EXCEPTIONAL FOR THE IMMUNE SYSTEM

ImmunoVen™ is a live-source, nutraceutical formulation featuring Olea-Pro™, a premier olive leaf extract (including the phytonutrient, oleuropein) coupled with the botanical support blend, Olea BotaniBlend™, making this **unique formula exceptional for the immune system.**

OLEUROPEIN

The olive tree, botanically known as *Olea europaea*, is a small evergreen tree native to the Mediterranean area. It features leathery, grayish-green leaves that produce **highly active eutrophic compounds** that are capable of defending the olive tree against bacteria, fungi, and insects.

The active nutrient in olive leaf is a **highly active phenolic glucoside compound called oleuropein**, the pharmacologically active constituent responsible for most of the leaf's immune effects. Although we do not test for them, the olive leaf **contains a full spectrum** of Triterpenes and flavonoids -- including rutin, apigenin, luteolin and dismetin - as well as the compounds oleasterol, leine and glycoside oleoside.

Use of the olive leaf extract has been widely cited and has been operative in herbal medicine since ancient times.

Present-day herbalists advise olive leaf extract as a superb support for the immune system.

20% OLEUROPEIN

Experience the best! **ImmunoVen™** is a **live-source, nutraceutical formulation featuring a full spectrum premier quality olive leaf extract containing a minimum concentration of 20% oleuropein!** Balanced with high value botanical support blend agents, just one capsule three times daily of this unique formula **offers extraordinary benefits to support a healthy immune system.**
