

CORAL LEGEND

Capsules and Powder

Whole Body Mineral Support, Including
Bones, Joints and an Alkaline pH

Are your clients getting the minerals they really need in their daily diet? Most likely not! Without regular intake of highly bio-available minerals, maintaining an ideal alkaline pH is almost impossible.

We have found that the most preferred source of alkalizing minerals in the world is Sango marine coral minerals: the key to supporting a perfect pH. Premier Research Lab's Coral Legend Plus provides legendary minerals to support the body's beneficial alkaline pH for whole body health, including the bones, joints, teeth, and an alkaline pH. Now that is quite a list of health benefits! That's because that is how important the body's pH and mineral levels are.

To achieve optimal health, it is critical to establish and maintain an ideal body tissue pH (as reflected by a first morning urine pH of 6.4 to 7.0). If your pH is below 6.4 when tested with the pH paper roll, use the pH Trio for 1 to 2 months until your pH is in the 6.4 to 7.0 range.

Simply take 2 capsules, twice daily with water for spectacular uptake, to support superior whole body health. Combine this with premium-grade D3 Serum to assist in the utilization of calcium. Keep the body's health at the optimum levels with premier quality minerals. And remember, the foundation of all good health starts with truly great mineral support.

Available in two sizes in capsules or powder
